REPORT.

To the Honorable the Senate

and House of Representatives of the State of Louisiana:

In compliance with the act of the Legislature, framed in 1815, the following report of the Board of Administration of the Charity Hospital is respectfully submitted to your honorable bodies.

The tabular statements annexed exhibit the management and condition of the Hospital during the year 1857.

The clerk's report shows that the number of patients admitted into the Hospital, during the year, was 8897; discharged 7913; died 1017.

It will be seen from the Treasurer's statement that the balance of funds on hand at the commencement of the year was....\$ 8,423 07

Income received during the year..... 76,380 04

Total income.....\$84,803 11

Expended during the year.....\$75,847 39

Balance on hand..... 8,955 72

\$84,803 11

At the commencement of past fiscal year there were outstanding debts against the institution, amounting to nearly \$12,000, which exhausted the balance then in the Treasury, and caused a draft on the income of the year 1857 to the extent of about \$4000. The outstanding debts now due by the Hospital will about absorb the balance on hand at the present time. Thus, it will be observed, that the expenditures of 1857 exceed those of 1856 by about three thousand dollars. The result was produced by carrying over into the year 1857 a portion of the debts contracted in 1856. The prices of provisions and supplies during the greater portion of the year 1857 exceeded those of any previous year.

The tax on foreign immigration, which in the year 1854 produced a revenue of \$71,000, falling off in 1855 to \$41,000, and in 1856 to \$28,424 25, has but slightly increased during the past year, the amount realized from that source, being \$30,201 75, or an increase of \$2000 over the previous year.

The tax on balls and concerts is very fluctuating in its character. The tax on theatres is included in this fund, and as the last Legislature reduced the tax on theatres to \$100 from \$500, the revenues of the Hospital from that source are considerably diminished.

In the year 1856, the income derived from balls, concerts, &c., amounted to \$8189 52; it has fallen off during the past year to \$5480. This last amount may be considered large when it is understood that but one theatre has paid the Hospital anything during the year 1857. The suits are now pending to enforce payment.

The estimated revenue for the year 1858 is as follows :

Tax on passengers.....	\$30,000
Tax on balls and concerts.....	5,000
All other sources.....	10,000
	<hr/> \$45,000

The annual expenditures vary from \$73,000 to \$76,000. This estimate leaves a deficit for the year 1858 of at least \$30,000, which must be provided for by State appropriation,

This annual demand on the State Treasury must continue unless some provision be made for increasing the permanent revenue of the Hospital.

It is much to be desired that the Charity Hospital, which is one of the chief ornaments of Louisiana, should be by proper legislation placed beyond the necessity of appealing to successive Legislatures for relief.

There is no special cause to stimulate immigration to this State, and it is not to be presumed that the revenue to be derived from that source will for many years exceed the present receipts. Hence your honorable bodies are respectfully requested to provide by law some other means of support for the Hospital, as its present revenues are entirely inadequate independent of State aid.

The appropriation of \$8000 made last year for repairs to the Hospital, except a small portion carried to the income account, has been expended in repairing the buildings of the institution; the most expensive portion of the work was the repairs to the roofs of nearly all the buildings which were in a very leaky condition.

A new boiler, together with the necessary apparatus, to supply the Hospital with water, is absolutely needed, the present boiler and

apparatus being entirely unfit for use, and in all probability cannot be used for more than two or three months longer. This is an absolute necessity, and an immediate appropriation of \$2000 is required for this purpose.

We again urge upon your consideration the establishment of an Alms House "for indigent and vagrant persons."

A large portion of these incumber the Hospital under the plea of ill health, and whose condition is chiefly owing to the want of the necessities of life.

In conclusion, we feel it due to the officers of the institution to say that they have discharged their respective duties with honesty, zeal, and ability.

No sufficient encomium can be passed on the Sisters of Charity who have charge of the internal economy of the Hospital. Their efforts in behalf of suffering humanity can never be sufficiently appreciated by those who do not observe their daily actions. Their department is managed with an economy, regularity, system, and cleanliness which render our Hospital the pride of the State.

J. A. BRAUD,

Vice-President.
